

Sponsorship

Sponsorship support can be vital to a project and we can coach you through the process of forming alliances and generating revenue from this important source.

This workshop will help you to identify and quantify the key benefits that are unique to your purpose and attract sponsors. This includes evaluating the best avenues and events to generate sponsorship revenue. We will discuss strategies for identifying and approaching sponsors, developing sponsorship proposals with value-for-money benefits, ways to offer sponsors measurable return on their investment, developing practical tools for ongoing communication with sponsors, and ways in which to negotiate with potential sponsors and actually close the deal.

The workshop also offers practical advice and guidance on developing marketing material and communications tools to engage sponsors and manage your relationship for ongoing sponsorship commitments.
